### Set Up & Organisation:

- In this half pitch practice, we focus on our attacking 4 players against a back 4. Our coach will play a ball into one of the front players, with their challenge to create effective angles to move defenders around. The back 4 must remain compact and look to regain possession to finish in one of two mini goals as shown.

### Progressions & Constraints:

- Implement opportunities for defenders to recover during counter attacks, this may be after they have regained possession and look to score in mini goals.
- Create opportunities to defend the goal with high balls and crosses around the 6 yard box, encouraging goalkeeper and defenders to protect goal

### Key Coaching Points:

- **Tactical** | Compactness to protect space behind defensive line and recognition of when to squeeze or drop as a back line.
- **Technical** | Defending in 1 v 1s and Defensive clearances (headers / tackles)
- **Social** | Collective defending, limiting spaces in between and communication to perform group actions (press/drop/shuffle)

### Questions & Notes:

- When do you press and when do you delay?
- What is causing the defensive line problems and how can you use the offside line to influence attacking options?
